

Get to Know Us: Strategy and Product!

in partnership with Edinburgh Maths Society

SPs shape what Jane Street does next—turning in-depth analysis into decisions with immediate, firmwide impact.

Join us at University of Edinburgh for an information session about our Strategy and Product Internship! This program offers a unique opportunity to explore the intersection of technology, finance, and business strategy. You'll learn how we tackle challenging problems across departments, support the firm's growth, and gain a holistic perspective of our business.

Who:

Edinburgh Maths Soc members and all Edinburgh students curious about the SP Internship

When:

Thursday, 13th November
6:00pm - 7:30pm GMT

Where:

University of Edinburgh

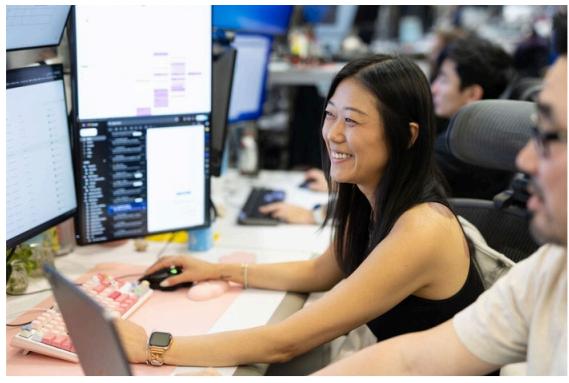

This session focuses specifically on Strategy and Product. It will not cover Quantitative Trading, Quantitative Research, Software Engineering or any other role.

[Interested? Sign up by Tuesday, 11th November.](#)

[We will confirm attendees via email by Wednesday, 12th November.](#)

If you have any questions, please reach out to ldn-connect@janestreet.com

Strategy and Product Internship

SPs shape what Jane Street does next—turning in-depth analysis into decisions with immediate, firmwide impact.

Embedded across trading, technology, finance, and operations, SPs are versatile generalists who connect dots between teams and transform complex challenges into executable strategies.

The kinds of problems you'll tackle

Build out new lines of business by researching markets, shaping strategy, and coordinating cross-firm execution

Scale infrastructure and partnerships by modeling constraints and optimizing resources

Integrate new trading flows by defining data models, workflows, and risk models

Respond to shifting market norms and regulations with fast, well-reasoned policy and system updates

Streamline core workflows by using data to reduce risk, remove bottlenecks, and improve efficiency

Interns spend 10-12 weeks in our New York, London or Hong Kong office leading real-world projects with mentorship, ongoing learning, and the opportunity to see your work implemented across the firm.
